BUY**Healthy Q4'25, accelerating product launch wagon**

About the stock: Hyundai Motors India (HMIL) is a part of South Korea based the "Hyundai Motor Group". HMIL has for long been the second largest auto OEM in the domestic passenger vehicle market in terms of sales volumes (market share: 13.9%)

- Its portfolio includes 13 models across major passenger vehicle segments including Grand i10, Aura, Verna, Exter, Venue & Creta among others

Q4FY25 Results: HMIL reported healthy Q4FY25 results. Sales volume for the quarter stood at 1.9 lakh units, down 1% YoY. Total operating income for Q4FY25 came in at ₹ 17,940 crore with ensuing ASPs at ₹ 9.14 lakh/unit, up 4.4% QoQ. SUV share of sales in total domestic PV sales volume stood at ~69% (unchanged QoQ). EBITDA margins for the quarter came in at 14.1%, up 280 bps QoQ. Consequent PAT in Q4FY25 came in at ₹ 1,614 crore, down 3.7% YoY but grew 39% QoQ.

Investment Rationale:

- Robust SUV mix position- HMIL to leverage PV premiumization trend:** The current shift in domestic consumer's preference toward upright seating position, advance tech features loaded safety-oriented vehicles has fuelled growth of the SUV segment. HMIL has been a clear beneficiary of this trend, with its SUV sales growing rapidly and accounting ~69% of its total sales, vs. ~65% share for the industry. Notably, its flagship model Creta, has led the sales in the mid-size SUV segment. Furthermore, with the introduction of new facelifts for Venue & Alcazar, as well as new product launches planned in tandem with ramp up of new plant, HMIL is well-positioned to capitalise on ongoing premiumization trend going forward. HMIL has guided for 26 product launches over FY26-30 (including refreshes), which includes 20 fossil fuel vehicles & 6 EV's. It will also bring Hybrids to India. It expects domestic volumes to grow in tandem with industry i.e. low single digit in FY26E while exports to grow 7-8% in FY26E.
- Strengthening presence in green mobility through parent's expertise:** With a stronger focus on alternate fuel vehicles through the introduction of dual cylinder technology, HMIL's CNG penetration has reached ~13% as of FY25. Moreover, with an evolving trend towards EV segment, HMIL aims to launch six new EV models domestically including recent launch of Creta EV. EV sales volume in FY25 stood at ~4k units i.e. ~1% of total mix. Furthermore, it will leverage the expertise of its parent HMC, which offers a diverse range of powertrain options including electric, hybrid and hydrogen. This is structurally positive for HMIL and bodes well for long run.

Rating and Target Price

- With fundamental levers of growth and healthy product launch pipeline, we have a positive view on HMIL. Financial strength of cash positive B/S, healthy Cash flow generation & robust RoCE profile at 30%+ remain unchanged. We assign Buy rating on HMIL and value at ₹ 2,130 i.e. 26x P/E on FY27E. We expect HMIL to benefit from rationalisation of personal income tax regime in FY26E and 8th pay commission payout in FY27E.

Key Financial Summary

RATING RATIONALE

ICICI Direct endeavours to provide objective opinions and recommendations. ICICI Direct assigns ratings to its stocks according -to their notional target price vs. current market price and then categorizes them as Buy, Hold, Reduce and Sell. The performance horizon is two years unless specified and the notional target price is defined as the analysts' valuation for a stock

Buy: >15%

Hold: -5% to 15%;

Reduce: -15% to -5%;

Sell: <-15%
